To Whom It May Concern:

I am writing this letter to provide a reference for the services of GlobalWebsiteCreations.com. Dallas and her team of experts at GlobalWebsiteCreations.com have designed and managed 5 different websites since 1999 for businesses that I either own or administer.

As a small business owner, I consider website design and management to be critical to our operations and success. Therefore, my standards are very high in regards to timely response on requests for web design and updating, as well as creative expertise in development. My expectations have been exceeded as I continue to submit frequent requests to GlobalWebsiteCreations.com to update and make changes to my websites.

I have been very impressed with the ability of Dallas and her designers to create interesting and interactive websites that also deliver to me as an owner the convenience of adding my own updates as needed. Their flexibility to meet my requests and deliver in a timely manner are essential to my business and their management and delivery has been exceptional.

I would highly recommend GlobalWebsiteCreations.com to any organization or business looking for website development or management services. I would be glad to provide a reference by telephone if requested. You can reach me at 1-403-556-1701.

Sincerely,

Nancy Neustaeter
